Fired Up - Skroman početak

Fired Up počinje kao želja jedne devojke da pokloni prijatelju jedinstveni praznični poklon. Posle danonočnog istraživanja, mukotrpнog rada i pregrši grešaka i odbačenih pokušaja, nastala je prva Fired Up sveća. Nakon toga, sve više ljudi je pokazalo zanimanje za ovaj mali projekat i ostalo je istorija...

Fired Up - Sada

Danas Fired Up proizvodi desetine proizvoda svake nedelje i radimo na tome da se proširimo. Svaki proizvod je ručne izrade, sa prirodnim sastojcima, pravljen sa istom količinom ljubavi kao i prvi put. Naše sveće dolaze u 7 različitih mirisa, ali ono što im je zajednočko je da svaka pruža zagarantovanih 28+ sati toplote.

Both editors show the same set of files: style.css, index.html, and main.js. The status bar at the bottom of each editor indicates the line number (Ln 85), column number (Col 10), spaces (Spaces: 2), encoding (UTF-8), line endings (CRLF), and file type (CSS). There are also icons for Go Live and Prettier.

The image shows two side-by-side instances of the Visual Studio Code editor. Both instances have the same title bar: "style.css - sajt - Visual Studio Code". The left instance displays lines 144 to 182 of a CSS file, focusing on the ".main-btn" class and its pseudo-elements. The right instance displays lines 180 to 219 of a CSS file, focusing on the "#main-slika" class and a modal dialog. The interface includes standard VS Code navigation and search tools, and both tabs show a preview of the code's effect on the website.
